RE: Letter of support for Ms Sita Karki, 2026-27 Scholarship Program Round 1 (Study NT)

To the Assessment Panel,

I am the Founder and Managing Director of Kathmandu DataWorks. Sita Karki worked for us as a part time data analyst intern from June 2024 to August 2025, and has continued as a casual contractor since. I supervised her directly for the whole period, a total of about 27 months.

Work and academic ability. Sita joined us while studying full time and still delivered. She built a dashboard for a hospital client that cut their monthly reporting from three days to four hours. She taught herself Python libraries we had not used before and documented her work so others could follow it. In my view her technical skill is already at graduate level.

Personal qualities and leadership. Sita is honest about what she does not know and quick to ask for help. When two interns joined after her, she trained them without being asked. She also gave her own weekends to the Gorkha flood relief project and asked for leave only twice. Colleagues trust her and clients ask for her by name.

I recommend Sita fully for this scholarship. She would be a credit to the Northern Territory community, and we would welcome her back after her studies if she chooses to return. I am happy to be contacted.

Yours sincerely,

Prakash Thapa

Mr Prakash Thapa

Founder and Managing Director, Kathmandu DataWorks Pvt. Ltd.

Relationship: direct employer and supervisor. Length of association: 27 months (since June 2024).
